## SCREENING ACOUSTIC SYSTEM

Office design has progressed a long way over the years with an ever increasing global trend for large open plan working environments.

There has however been many compromises that have had to be addressed with this trend such as acoustic considerations, a sense of privacy when required and a broad spectrum of general comfort within the office environment. These considerations are the catalysts behind GROOVE while still maintaining a strong design ethos of form and function.

The system is highly modular and can be assembled and configured into an array of almost endless possibilities to create inspiring geometric landscapes within an envelope with the added convenience of day two re-stacks. Essentially, this kinetic architectural system can evolve as the space it inhabits evolves.

# AVAILABLE COLOURS AND SPECS

## PRODUCT SPECIFICATIONS

**Composition:** 24mm 100% polyester fibre  
**Recycled content:** Minimum 45% PET plastics  
**Recyclability:** 100% recyclable

## PROCUREMENT

Procured in standard kit form as listed components below.

**Components :** 17 vertical struts (2058mm)  
14 horizontal struts (1156mm)  
8 90 degree corner connectors

**Coverage:** Covers approx 4 sq metres

## ACOUSTICS

**Acoustic NRC Rating:** NRC 0.75 (24mm systems) Class C  
Calculated to EN ISO  
11654:1997

## VOC EMISSIONS

**VOC concentration:** Low VOC product.  
Product manufactured from 100% polyester fibres and no  
chemicals are used in manufacture of the material.

## PET MATERIAL FIRE RATINGS

24mm - EN13501-1:2007+A1:2009: B-s1, d0

## INSTALLATION

We recommend all 14x6 products to be installed by a preferred installer.  
Preferred installers can be supplied on request.
